

Safety, Health & Environmental Services

The Safety Man, LLC serves businesses, construction teams, and government entities across the Washington, DC metropolitan area. We deliver actionable compliance strategies, hazard mitigation plans, and workforce training to reduce workplace liabilities and protect your most valuable assets.

Core competencies

Regulatory compliance & auditing

OSHA general industry and construction compliance assistance, site health & safety audits, and comprehensive safety inspections.

Workforce training & authorized instruction

Certified OSHA Outreach courses, specialized high-hazard training (Fall Protection, Lockout/Tagout, Power Hand Tools, Machine Guarding), and Forklift/Rigging certifications.

Safety program & policy development

Custom written safety programs, site-specific safety plans, hazard assessments, and emergency evacuation policy design.

Past performance & executed scopes

Commercial & specialty construction

Directed daily safety operations, subcontractor compliance oversight, and high-risk field inspections for commercial construction projects.

Industrial wholesaler audits

Successfully engineered comprehensive warehouse, supply chain, and machinery safety implementation protocols to completely abate complex regulatory citations.

Subcontractor site-safety management

Managed comprehensive safe-work integration for painting, masonry, and heavy rehabilitation personnel on municipal contracts.

Independent safety facilitation

Partnered extensively with regional industry groups to deliver safety consulting deployments and multi-site inspection rotations.
